About Us

In simple words, Dozer Systems provides Managed IT Security Services, Software Development, Cloud Solutions, Virtualization (VDI), Disaster Recovery, and Network Services optimized from the edge to the end-user at a global scale while offering 24/7 U.S.-based support.

Our Focus

Our focus at Dozer Systems is to stay committed to innovations and usability. We partner with the top technology providers in the country to bring you the best possible managed IT security services. However, you can be confident that we do not suggest any third-party products or services just to make a profit. We believe in providing only those solutions that fit your specific business case.
